

## **Backend Developer**

### **About FalconAI:**

FalconAI is a VC backed start-up developing cutting-edge AI algorithms. Based on novel artificial intelligence & machine learning technologies, the company plans to deploy a series of disruptive applications in various sectors. FalconAI Team is comprised of top AI researchers and engineers located in Boston and Istanbul. The company is seeking an experienced back-end developer for our Istanbul office to lead the design and implementation of our web application at scale.

### **At FalconAI, you will be:**

- Leading the design of an entire system architecture for a scalable web application
- Instructing other engineers for rapid ideation, prototyping and implementation of the web application from scratch
- Configuring and deploying cloud platforms
- Working and managing agile teams
- Administrating version control systems

### **We're excited about you because you have:**

- An advanced (MSc equivalent or above) degree in Computer Science, Applied Mathematics or related technical fields
- Knowledge in Linux server administration and networking, especially in AWS
- 3-5 years experience in backend development; specifically Django and MongoDB using AWS EC2 and S3
- Proficiency in version control and automated software testing tools including Git, Travis, JMeter, LoadImpact, New Relic, etc.
- Proficiency in containerization (Docker) and orchestration (Kubernetes, Docker Swarm) is a plus.
- Familiarity with state-of-the-art AI methods and deep learning is a plus.
- Familiarity with pen-testing and security tools (Metasploit, InsightVM etc.) is a plus.

### **You will love working at FalconAI because:**

- You will be an integral part of a fast-growing international team
- You will work at a startup where things move very rapidly, and you will have a massive impact on the final product
- Your performance will not be evaluated based on your working hours but your delivery
- Competitive salary based on your previous experience

**Please send your application attached with your CV to [info@falconai.tech](mailto:info@falconai.tech)**
